

## **More Digital Prints and Still a Dummy Keith Smith**

Tuesday 11th November

Keith Smith from Stokesley was the guest at our meeting this Tuesday. He insists he is still a "dummy" at digital, mainly because he always had problems with computers in the early days.

His talk is entitled "More Digital Prints and still a Dummy". Most of his prints are landscapes, taken locally and in France, his favourite holiday destination.

We all enjoyed his show and think his days of problems with computers must now be behind him.
